

Oregon K-Plan and Waiver Services for Children with I/DD

Note: As K-Plan and Waiver services are Medicaid funded, they must be used only when similar required services are not available through other private/public funds.

K-Plan Services (requires MAGI-Child/CW medical/OSIPM)	Waiver Services (requires OSIPM)
Assistive Devices Devices necessary to meet daily ADLs/IADLs or health related support needs.	Environmental Safety Modifications Physical adaptations to the <i>exterior</i> of the family home, necessary to ensure health, welfare, safety, and to enable functions with greater independence for the child in the home.
Assistive Technology Technology necessary to provide additional safety, support, and replace the need for direct interventions, to enable self-direction of care, and maximize independence.	Family Training Training related to the child's disability and support needs, provided to the family to increase the abilities of the family to care for, support, and maintain the child in the family home.
Attendant Care Assistance with Activities of Daily Living (ADLs), Instrumental Activities of Daily Living (IADLs), and health-related tasks.	Specialized Supplies Medical supplies that are not available through other services such as the Oregon Health Plan.
Behavior Support Formal consultation, assessment and training to support the primary caregiver and enable the child to develop, maintain, and enhance skills necessary to accomplish ADLs/IADLs, and health-related tasks.	Vehicle Modifications Modifications to the vehicle primarily used by a child to meet the unique needs of the child, to keep the child safe in the vehicle, and the upkeep and maintenance of a modification made to the vehicle.
Chore Services One-time or occasional assistance with heavy household chores that are beyond typical parental responsibilities to restore a hazardous or unsanitary situation to a sanitary and safe environment.	Waiver Case Management Case management for a child enrolled in Comprehensive waiver services.
Community Nursing Services Formal nursing assessment, care coordination, monitoring, development of nursing service plan, delegation and teaching of identified health related supports.	

K-Plan Services (requires MAGI-Child/CW medical/OSIPM)	Waiver Services (requires OSIPM)
Community transportation Non-medical transportation that are beyond typical parental responsibilities to allow a child to gain access to community services and activities.	
Environmental Modifications Physical adaptations to the <i>interior</i> of the family home, necessary to ensure health, welfare, safety, and to enable functions with greater independence for the child in the home.	
Relief Care Short-term care and supervision in the absence or need for relief of persons normally providing attendant care to the child.	
Skill Training Training for acquiring, maintain, and enhance skills necessary to accomplish ADLs/IADLs, and health-related tasks.	
Transition Services Costs that are beyond parental responsibilities to transition a child into the family home from a nursing facility, ICF/ID (Intermediate Care Facility for individuals with Intellectual Disabilities), or acute care hospital.
